COSTA MESA, Calif., Oct. 11, 2018 /PRNewswire/ -- SYSPRO, a global provider of industry-built ERP software, has ranked among the best in G2 Crowd's list of Leaders of ERP Suites Software.

SYSPRO has ranked among the best in G2 Crowd's 2018 list of Leaders of ERP Suites Software

According to G2 Crowd, the best ERP Suites Software products in the Leaders quadrant are rated highly by G2 Crowd users and have substantial "Market Presence" scores. Scores are determined by customer satisfaction based on user reviews, and scale based on market share,

vendor size, and social impact. Reviewers submit their satisfaction scores based on ease of use, requirements met, business practices and vision, administration satisfaction, and how much they are likely to recommend their product. Once again, SYSPRO outranks several well-known industry giants when it comes to product, customer experience, and support.

"Nothing brings us greater satisfaction than learning our customers and partners are successful in their respective businesses," said Joey Benadretti, President, SYSPRO USA. "That's why SYSPRO finds the G2 Crowd rankings so valuable. We have worked very hard to provide the most advanced cloud and on-premise ERP solutions, while setting a standard in excellent customer care – which is evident in our jump to the G2 Crowd ERP 'Leaders' quadrant," Benadretti said.

The 2018 Fall G2 Crowd ranking follows several prestigious award wins for SYSPRO in customer care, technology, product, leadership, and company culture. The big jump into the leadership quadrant also lands in the same month SYSPRO celebrates its 40<sup>th</sup> Anniversary. The events this year have further positioned SYSPRO as one of the longest standing, independent ERP software leader, serving a wide variety of manufacturers and distributors around the globe.

Customers reviewing SYSPRO on the G2 Crowd site can attest to SYSPRO's top ranking as a full end-to-end solution for its customers. "SYSPRO has great customizability and flexibility. It is relatively easy to learn and use in day-to-day operations," said a recent SYSPRO reviewer. "Support is very responsive and will work with you on any issue you may have," they concluded.

SYSPRO is backed by its PartnerUP channel sales program -- a community of specialists with sites in over 60 countries. SYSPRO's growing partnerships drive the ERP provider in its mission to provide manufacturers and distributors with choice, flexibility, an engaging user experience, and total visibility across the supply chain.
